

PRE-CONVENTION PROBE RESUMED BY COMMITTEE

Gov. Lowden's Missouri Campaign Under Fire

REFER TO 1912 FIGHT

CHICAGO, July 7.—The senate committee investigating pre-convention campaign expenditures of various candidates today resumed its hearings by delving into the organization and expenditures of backers of Major General Wood. The committee also began an exhaustive inquiry into the organization in Missouri of Governor Frank O. Lowden which did not end until early in the evening after various details of the Roosevelt-Taft fight in 1912 had been brought up by witnesses.

Chief among the witnesses were William Loeb, formerly private secretary to Theodore Roosevelt and who described himself as a "sort of clearing house" through which Wood funds in the east passed. J. L. Babler, Republican national committeeman from Missouri and E. L. Morse of Excelsior Springs, Mo., described by witnesses as the distributor of Governor Lowden's campaign funds in Missouri and boss of the third Missouri congressional district.

Ben F. Kesterson of Princeton, Mo., brought in the Taft-Roosevelt issue, declaring both had spent more money in Missouri than Lowden in 1920 and described a system of payment by blank checks for which he received \$25 each, but which were cashed for sum up to \$250, he said. Kesterson was a Taft supporter.

After Mr. Loeb had described how a group of New York men underwrote \$1,000,000 for the Wood campaign, Senator Reed took up the cross questioning of nearly a dozen witnesses concerning political conditions in Missouri and particularly in the third congressional district.

Mr. Loeb presented several check books which were transcribed into the records and which he said would show what funds he disbursed. About \$400,000 passed through his hands, he testified. He also told of sending cashiers' checks for \$5,000 without accompanying letters, a practice which he asserted was not unusual in politics. He sent these checks wherever he was told to by Frank Hitchcock a Wood manager.

Nat Goldstein and Robert Moore who previously admitted receiving \$2,500 each to help Lowden's interest, presented cashed checks as proof they had returned the money.

J. L. Babler described the disbursement of several thousand dollars and said that sums given to E. E. E. McJimsey and Roscoe Patterson of Springfield, Mo., candidates for governor and congressman respectively, were intended to further the Lowden interest but the recipients might have thought the money was for their own campaigns.

"I discussed the Lowden campaign with them too," said Babler.

Edward F. Goltra of St. Louis, Democratic national committeeman and Joseph T. Davis, a St. Louis lawyer, have been subpoenaed.

The committee will also investigate charges filed today by William Armstrong, a Chicago lawyer, that the department of justice had been instrumental in granting pardons to alleged criminals who might help politically and had blocked prosecution by the government of persons trying to gain several hundred thousand dollars by illegal means.

Mr. Armstrong charged the department of justice with attempting to prevent indictments being returned against the New York Central Railroad by a federal grand jury and said Democratic members of congress, agreed with a "certain person to obtain \$327,178.13 from the government on post-war claims if given 25 per cent."

Chicago, July 7.—Ohio's Republican leaders who conferred today with Chairman Hays were reported to have disapproved of the "front porch" campaign plans of Senator Harding. They favored a "swing around the circuit" instead of the passive campaign advocated in some quarters.

"We haven't the slightest apprehension about Ohio," said George H. Cook, chairman of the Ohio Republican state committee.

The vanguard of the Democratic forces returning from the San Francisco convention arrived in Chicago. It was composed of Judge Samuel Seabury of New York and a group of eastern delegates.

HARDING BEGINS WORK ON SPEECH OF ACCEPTANCE

Completion is Expected Within Next Ten Days

JOHNSON GIVES OUT STATEMENT

MARION, Ohio, July 7.—After several weeks spent in preliminary preparation Senator Harding today began the actual writing of his speech to be delivered on July 22, accepting the Republican presidential nomination.

He expects to complete it in about ten days during which time he plans to see but few callers. Following a custom acquired while in active newspaper work, he is writing it with a pencil on a scratch pad from which it will later be copied on a typewriter.

"It's a habit of thirty years' standing," he said. "I write as I think."

It is said he never dictates a speech and seldom makes any changes in his "copy."

The announcement by Senator Johnson of California that he would support the Republican ticket greatly pleased Senator Harding when informed of it today. The statement did not come as a surprise, however, as it had been understood around Harding headquarters for some weeks that that would be the California senator's attitude. "I am glad to know of everybody's support," he said, "and I would much rather have support on the grounds that our platform is appealing than on the grounds of interest in the nominee."

He added that he intended to emphasize "interest in party."

"It's going to be a bid in the campaign," said Senator Harding. Attention was called to statements accredited to Governor Cox that he planned an intensive campaign with an extended speaking tour.

"I should imagine he would, but that does not change my plans any," Senator Harding said.

The senator today received a letter from Hubert Taft, editor of the Cincinnati Times Star pledging to him the support of that publication as well as "the Taft family."

Another quiet day is planned for tomorrow.

CON CON CONVENTION ADJOURNS UNTIL SEPT. 21

SPRINGFIELD, Ill., July 7.—After undoing the only radical accomplishment of its first six months by voting to reconsider its action in limiting Cook county's representation in the legislature the constitutional convention adjourned this afternoon until Sept. 21. The vote was 44 to 35. Three hours earlier by 40 to 39 the convention had voted to continue its labors until all articles had passed first reading.

Closing moments of the convention saw another repudiation. Limitation of Cook county's representation in the legislature were wiped from the slate. The convention voted to reconsider their action after vacation.

These limitations confining Cook county's membership in the senate to one third and in the house to less than one half, constituted the only radical departure from the old constitution that the convention had taken. This and other important articles on judiciary, revenue and taxation, initiative and referendum, and home rule for Cook county are left untouched. A majority of the delegates it seemed wanted to remain in session until these matters had been dealt with. However, the close vote of the morning indicated that further meetings would be without a quorum and consequently useless.

President Woodward would make no statement. Among the fifteen articles already passed on first reading, and ready for the committee on phraseology and style are these matters new to the constitution:

Permitting women, if they choose, to serve on juries.

Giving the governor thirty additional days to sign bills passed by the legislature.

The section permitting reading of the Bible in public schools was also passed, but the subject to the convention that it be debated on second reading.

OBJECT TO EXHIBITS IN ANTHRACITE HEARING

Operators Oppose Evidence Dealing With Alleged Monopolistic Control—Don't Want Public to Know

Seranton, Pa., July 7.—Strong opposition not only to the submission of exhibits dealing with the alleged monopolistic control and profiteering in the anthracite industry during the past five years but also the public argument over the advisability of the presentation of the figures and evidence was put forth by coal operators at sessions of the Anthracite Mine Commission today.

The persistent effort of the mine owners to withhold all figures from the public which might show revenue and income resulted in the first executive session of the commission this afternoon to determine whether another executive meeting would be conducted tomorrow morning at which time the argument on the submission by the United Mine Workers of the exhibits would take place.

NATIONAL COMMITTEE WILL KEEP HANDS OFF

Will Hays Says Committee Will Not Decide in Committee Controversy—Oglesby Plans to Complete Platform

Chicago, July 7.—Colonel Frank L. Smith, chairman of the Republican state committee, was told by National Chairman Will H. Hays today that the national committee will not render a decision as to whether the 28 Illinois electoral candidates are legally nominated. Mr. Hays said the difference of opinion held by the two Republican factions in the state prevents the committee from dealing with the question. He said this stand was taken as a result of a conference with Senators McCormick and Sherman.

Colonel Smith said that personally he believed the Republican electoral ticket had been legally nominated, but that there were others in the state who questioned it.

"If the national committee isn't interested in whether there is a legal electoral ticket in Illinois, I don't know who is," he said.

The Thompson organization organization will remain within the party, he was announced today in a circular distributed by the pro-American wing of the Republican party, abandoning the third party movement in the state.

Lieutenant Governor Oglesby, selected by the anti-Thompson forces as candidate for the Republican nomination for governor, left for Springfield today to complete the draft of his platform.

GOV. COX URGES LOUISIANA TO PASS SUFFRAGE

Democratic Nominee Says Party Owes it to Women

MAKE PLANS FOR CAMPAIGN

DATON, Ohio, July 7.—If the legislature of Louisiana acts in accord with the opinion of Governor James M. Cox, Democratic nominee for president, women will be enfranchised to vote at the November election and the Democratic party may get the credit for making universal suffrage a fact.

In a telegram to Frank J. Looney, chairman of the Louisiana state central committee, Governor Cox expressed the opinion that the Louisiana legislature "owes it as a duty to the Democratic party to ratify at once."

Mr. Looney had wired the governor asking him to express his views to the legislature.

In his official capacity as governor, Mr. Cox has repeatedly placed himself on record as being in favor of giving the vote to women.

It was stated today by those in close touch with the governor that he will conduct his campaign chiefly from Columbus, where he will necessarily have to be much of the time. His Dayton friends, however, anticipate that no small part of his campaign work will be conducted from his newspaper office here.

No political conferences of importance are expected until the party leaders return from San Francisco. The visit of Franklin D. Roosevelt, the vice presidential nominee, which is expected Saturday and is anticipated to develop into anything more than an exchange of felicitations.

The governor spent most of today at his newspaper office receiving callers and reading messages of congratulations which have poured into his office since early Tuesday morning. Among them were felicitations from all the Democratic presidential candidates, Vice President and Mrs. Marshall, cabinet members, governors, political leaders of both parties, representatives of labor, business men and personal friends.

Franklin K. Lane, former secretary of the interior said:

"I sincerely congratulate you and the country. Do give us a campaign that is constructive, that will challenge the interest and support of the new voters. The people want to hear a definite word as to how affairs as well as foreign."

Tonight the governor talked golf at a dinner at the Dayton country club.

"If I have one public hobby that is more outstanding than any other it has been the preaching of 'more homes.' You can preach patriotism to a man and appeal to his sense of duty, but you can't make the sort of appeal to him that he gains from his own reflections before he owns a home," he declared.

Little Hope for Suffrage

Baton Rouge, La., July 7.—Reading in the Louisiana house tonight of the telegram from Governor Cox, the Democratic nominee for president, expressing the opinion that the Louisiana legislature owed it as a duty to the Democratic party to ratify the federal suffrage amendment brought no open movement to obtain action on the ratification resolution before the die adjournment tomorrow night.

Some attempt to obtain action may be made tomorrow but as a suspension of rules in both houses requiring a two-thirds vote would be necessary to bring up the ratification resolution, leaders believe there is slight hope of adoption.

The bill proposing to extend the suffrage to women by state amendment was defeated in the senate today 27 to 14, or one short of the required two-thirds.

U. S. REMOVES TRADE RESTRICTIONS WITH SOVIET GOVERNMENT

State Department's Action Taken Independently of Other Nations

INDIVIDUAL EXPORT LICENSE REQUIRED

WASHINGTON, July 7.—(By The Associated Press.)—Restrictions on trade with Soviet Russia were removed today by the state department except insofar as they pertain to the shipments of materials susceptible of immediate use for war purposes.

An individual export license must be obtained for the shipment of such materials and it was announced such licenses would be granted only in exceptional cases.

Individual export licenses also will be required for the export to Russia of locomotives, railroad material and rolling stock and motor cars and component parts.

The state department's action while taken independently of other nations, followed extensive exchanges between the United States and Great Britain and France. It is believed to have been hastened by the recent negotiations between Gregory Frassin, and Premier Lloyd George looking to the resumption of trade between Great Britain and Russia.

In announcing its action the state department took particular pains to state that political recognition, present or future, of any Russian authority exercising or claiming to exercise governmental functions was neither granted nor intended. It also emphasized that individuals or corporations trading with Russia would do so on their own responsibility and at their own risk as this government could offer no protection to Americans going to Russia or trading with Russia. The statement also made by the department that indications were Russia had only a small quantity of raw materials for export; that its purchasing power was very limited and that consequently there would not be any considerable trade with that country.

CAREFUL STUDY BEING MADE OF MEX SITUATION

J. S. Officials Are Impressed by New Government

ENVOY SEEKS CONFERENCE

WASHINGTON, July 7.—(By The Associated Press.)—The Mexican situation is receiving more careful study by the American government than has any subject since the Paris peace conference was said today at the state department. This is with a view to securing recognition to de la Huerta's provisional government, provided satisfactory assurances are given it can and will maintain order and will live up to its obligations respecting the lives and property of foreigners.

I. Calderon, special envoy sent to ask recognition, will ask for another conference with Acting secretary Davis as soon as he has conferred with his staff.

American officials, it is stated authoritatively are impressed with the evident sincerity of the expressions of de la Huerta and of his efforts to bring about order in Mexico but they note that the active workers in the various departments have not been changed and that he newly appointed cabinet officials leave their work chiefly to the same man who conducted the affairs under Carranza.

Reports from Mexico City state that foreigners who went there to oppose differences between their companies are forced to deal with the very men who they formerly dealt with and in some cases the men who conducted the confiscation of their properties under Carranza and that they are meeting with the same difficulties as before.

General Obregon's desire to reduce the size of the army, reported in official and unofficial circles are believed to be sincere but it is noted the army has been increased by 30,000 men as a result of the revolution. Official reports have told of efforts to "moralize" the army by stopping the business to life and property.

The treasury department estimated the cost of the army at present is one million pesos a day, and Salvador Alvarado, acting secretary of the treasury, officially announced that there were 8,000 or 9,000 people living on the nation by the padding of payrolls.

One of the most serious of the military abuses is the withholding of railway cars and locomotives in spite of specific orders for their return to the owners, and railway operators say it is impossible to maintain freight or passenger schedules.

Difficulties of reorganization and administration apparently are not the least serious of those facing the new government. Reports received today told of several new revolutionary disturbances in various parts of the country. These seem to be distinct from the movement led by Villa and while not considered serious in themselves, department officials are giving them careful study.

Reports from the border today that Villa had signed an armistice had not been confirmed.

Officials frankly state that the new regime in Mexico has a great task to perform before the country is restored to anything like normal conditions.

They fully appreciate the difficulties that confront the new administration and say they are anxious to give what aid they can.

The Democratic candidate for vice president is a fifth cousin of the late President Roosevelt.

Ohio is again the battle ground—and it has been termed a pivotal state.

The next President of the United States is certain to be a newspaperman.

Automobilists should remember that "Safety First" is still a good slogan. Some of them seem to have forgotten it.

It is understood that representative William Dietrick of Beardstown prefers his law practice to re-nomination.

The weather is fine for the wheat harvest and farmers in this vicinity are making good progress. They sure are "sticking to the job."

Sheldon Clark, commodore of the Chicago Yacht Club, is the latest aspirant for the gubernatorial nomination on the Republican ticket in this state.

Col. Frank L. Smith, chairman of both the old and the new Republican state committees and the Thompson candidate for United States senator has written a letter, declaring the Thompson committee in Cook county was the "regularly elected" committee and that the electors nominated at the recent state convention also held illegal by the Supreme Court, were the "regularly nominated" Republican electors in Illinois.

The selection of Roosevelt for second place on the Democratic ticket is said to have been a consolation prize awarded by the Brennan-Murphy-Fagart combine, which dictated the nomination of Governor Cox of Ohio, for president, to the Wilson administration crowd, that went down fighting for William G. McAdoo and Attorney General A. Mitchell Palmer.

Phillips in the Chicago Tribune says: George E. Brennan and the Illinois delegation nominated the Democratic candidate for presi-

dent. As a result Brennan is perhaps nourishing a hope that he will get better reward from his nominee than did Roger C. Sullivan with the candidate he put over at Baltimore in 1912. To make the job 100 per cent perfect Brennan compelled Murphy and Tammany Hall to accept Franklin D. Roosevelt for the vice presidency. The administration forces charge, and the field that opposed McAdoo admit, that it was the Chicago man's handiwork that brought about the convention result.

BRYAN'S HEART.

A correspondent of the Chicago Tribune reports that he caught Mr. Bryan just as he was leaving San Francisco after the convention closed its labors. Mr. Bryan said:

"The convention consumed more than the usual time in reaching a decision as to the presidential candidate, and the voters now have about four months to deliberate over that decision."

"I shall use some of that time, to paraphrase a well known excuse, for hesitation."

"My heart is in the grave with our cause, and I must pause until it comes back to me."

Bryan uttered these words with all the appearance of a man broken in spirit.

"Then you mean to say that you believe the nomination of Mr. Cox must be interpreted as a victory for the wets? the correspondent asked."

"It cannot be interpreted any other way," said Mr. Bryan. "Altho that was, of course, not the only force behind the Cox movement."

STATE SOVEREIGNTY.

The Republican Publicity Association thru its President, Hon. Jonathan Bourne, Jr., gave out the following statement from its Washington Headquarters:

"There should be universal and hearty commendation of the attitude taken by Warren G. Harding, Republican nominee for the Presidency, on the question of Federal executive interference in the affairs of the sovereign States."

"When approached by leaders of the suffrage movement as to his attitude toward the suffrage question, Senator Harding called attention to the fact that his own vote as a Senator had been recorded in favor of the suffrage amendment. He also said that nothing would please him more than to have ratification made effective in time to give American womanhood full participation in the election next November. But he also informed the suffrage leaders that if he were vested with executive authority he would not deem it proper for him to

trespass on the rights of States by exercising his influence as President to determine the action of a State Executive. As Senator Harding expressed it, his desire for the ratification of the suffrage amendment "does not conflict with my determination that I could not with propriety attempt to force any State Executive to hasten action in violation of his own sense of duty. There is a point at which full executive authority may approach and trespass on the right of States, and I should not want to trespass if I bore the commission of authority."

"During the past seven years we have had in the White House a man who has not only endeavored to exercise all the powers of the executive, single-handed, ignoring and overriding even the Members of his Cabinet, but he also has undertaken to dictate the course of procedure of the Legislative Department of the Government and of some of the independent commissions of a quasi-judicial character. He has gone even farther than that, and has undertaken to tell the Governors of States what they should do. His assumption of the divine right to rule is in absolute contravention of both the letter and the spirit of American institutions."

"It will be a relief to the American people to have in the White House a man who is content to center his energies and abilities upon the performance of the duties entrusted to him, and to manifest confidence in the ability and integrity of other officials. National and State, who have been selected by their peoples to represent them in an official capacity."

"Assumption of omnipotence is manifestly unwarranted, and inconsistent with any theory of government other than that of the desirability of the establishment of despotism."

Rippling Rhymes By Walt Mason

Over Anxious.

The man who is too keen to sell such goods as he may have displayed is headed wrong, and he may well drive from his door the choicest trade. In San Diego, storied town, I sought a barber, weary-limbed, and in his chair I sat me down, to have my princely whiskers trimmed. And as he wrought he spied away; of tonics for the hair he told, and they would change my ringlets gray into the finest shade of gold. And he had dyes of every hue, made up from barks and herbs and fruit, and he could stain my sideboards blue, so all the girls would think me cute. And he had perfumes of the rose and hyacinths that died the death, and he had stuff to bleach my nose and change the color of my breath. He had strange dope in wicker quarts and salves and lotions by the peck, he could eliminate my warts and take the ring-bone off my neck. He told me that my scalp was soiled and needed treatment such as his; he talked until my blue blood boiled. And, gentle reader, never more, tho' whiskers grow an inch a day, shall I, within that barber's door, have my alfalfa shorn away.

P. H. GRIGGS

THIS GROUNDHOG WON'T SEE HIS SHADOW AGAIN

Residents in the vicinity of the Doolin avenue rug factory have been kept guessing for the past three or four weeks by a mysterious prowler which has been stealing several chickens each night.

Last night an air-dale dog belonging to I. M. Bunce traced him to the rug factory. Ellis Mann, Will Schildman, I. M. Bunce, George Hoffman and Frank Branstetter came over to help and after some three hours of digging back in under the factory routed out a thirty pound groundhog which put up a stiff fight before the air-dale finally got it by the neck and finished its career among the chicken coops on Doolin avenue.

Hupmobile
How fortunate it is for us that the men who founded this business, set out with the simple idea of trying to build the best car of its class in the world. That clear-cut determination has led them to adopt policies which are careful and conscientious, and manufacturing principles which are sound and substantial. The net result has been a most unusual and cordial relation between them and the public—based on the confidence which people have learned to place in the Hupmobile and the company which builds it.

A BUSY CAREER.

C. H. Settles of 711 South Clay avenue is 51 years old and can point to a busy life. In 1889 he took the examination for traction engineer and passed successfully and followed the calling for some time. In 1903 he took successfully the examination for hoisting engineer and entered the employ of Story, Douglas & Brode, contractors for building a part of the B. & O. road in Sangamon county, west of Springfield. For some time he has been head sawyer in the state sawmill on George Wheeler's farm and now has an engagement to run a threshing machine for Ted Dunavan near Prentice.

Mr. Settles seems good for a long time yesterday as his habits are correct and his health good. He is one of the men who help make the country what it is.

WAS NERVOUS AND RUN DOWN

RESTORED TO NORMAL HEALTH BY BIO-FEREN

"I feel I owe you people a world

of gratitude for the benefit I have

received in using your wonderful

remedy—Bio-feren Tablets, which

have completely restored me to

normal conditions," says Joseph

E. Webb of Muncie, Indiana.

Bio-feren is without doubt the

greatest and quickest remedy for

men and women ever offered di-

not at all expensive.

Take two after each meal and

one at bed time, and after seven

is exhausted.

Then if you feel that any claim

made in this special notice is un-

true—if you are not in better

health—if you do not feel ambi-

did before, the druggist who sold

you the tablets will gladly hand

you back just what you paid for

All druggists in this city and

can easily get it for you.

Seven a day for seven days—

Wonderful results.

CHAMPION STOWAWAY PROVES TROUBLESOME
Belgian Lad Who Tried Many Times to Get Into Country Makes Trouble for Benefactor — Officials Say They Cannot Now Deport Boy.
New York, July 7. — Michael Gilhooley, christened the "champion stowaway" by immigration officials, is again in trouble and may be sent back to Belgium. Representatives of Mrs. Marion C. Curry, who adopted him and furnished a bond to support him after his fifth unsuccessful attempt to enter the country, telephoned to Ellis Island today to inquire how she could be relieved of her ward and have him sent back to Europe.
Gilhooley, 14, an orphan, wandered over northern France and Belgium seeking shelter in camps of the allied armies. Finally he fell in with American military units and became attached to the doughboys.
After the armistice he became lonesome and secreted himself aboard a transport only to be discovered and turned over to immigration authorities on his arrival here. He was sent back, brokenhearted but not discouraged. He tried again and again and soon became a human shuttlecock on the high seas.
His various rebuffs won him wide notoriety and considerable sympathy. Mrs. Curry induced officials to release him in her care. She first took him to live with her and later sent him to an exclusive private school.
Reports showed that the boy had made excellent progress in his studies but apparently his deportment outside was not so good. Mrs. Curry was informed that the government cannot now deport the boy but that if she wants to get rid of him she must pay his traveling expenses to Europe.

GREAT FIGHT AGAINST MALARIA BEING WAGED
Report Shows Work of Rockefeller Foundation in Fighting Malaria and Hookworm in Tropical and Semi-Tropical Regions.
New York, July 6. — Eight hundred million people living in the world's "malaria zone," which practically coincides with the tropical and semi-tropical regions of the earth, are subject to the "crippling and deadly influence of that disease," according to George E. Vincent, president of the Rockefeller Foundation. Residents of the southern part of the United States, Mexico, Central America, the West Indies, and the northern part of South America are included in this "malaria belt," said Mr. Vincent, who today issued the second of a series of reviews on the Foundation's work against malaria and hookworm for the year 1919.
Practical methods for fighting malaria, as used by the Foundation's sanitarians, include elimination of the germ carrying anopheles mosquito by preventing its breeding; the screening of houses against this mosquito, and the blood of human malaria carriers. "Public funds are a necessity in the control of malaria as well as hookworm," the review continues, "and are now being appropriated faster than sanitarians can be found to do the work."
"Hookworm control has proved a most successful means of controlling communities that health is a purchasable thing, and during 1919 control measures were carried on in 25 different states and countries, with a general tendency toward a reduction in the prevalence and intensity of the infection; more efficient and more widespread sanitation, and the education of communities in the possibilities of general health policies."

HELD PENDING INVESTIGATION
Chicago, July 7. — Lieut. Carl Wanderer, whose wife was killed in the vestibule of their apartment building several weeks ago, presumably by a man whom Wanderer killed in a pistol duel that followed, was arrested last night with his brother-in-law and consoling further investigation of the case.
Through the factory police traced the number of the pistol believed to belong to the dead man and found that Wanderer's brother-in-law was the original owner. The brother-in-law, John Hoffman, said he sold the gun to Fred Wanderer, a cousin of the lieutenant. Fred Wanderer, when arrested, told police, they say, that Carl had borrowed the gun from him several days before the shooting.
Carl Wanderer said, according to police that after killing the man he traded guns with him as the stranger's gun appeared to be a better weapon.

Sill said threats had been made to lynch Canefax if he is caught. The victim of the assault is a rural route mail carrier.
Governor Crossley has offered a reward of \$300 for the apprehension of Canefax who was under twenty year sentence for robbery in the first degree.

SEWAGE DUMPED IN LAKE CAUSES DEATHS
Chicago, July 7. — Chicago's typhoid death rate would be reduced to two or three cases a year if a few North shore towns quit dumping their sewage into Lake Michigan, Health Commissioner Robertson said today.

BLUFFS BOY PAINFULLY INJURED IN FALL

Robert Bingham Sustains Broken Bones When He Falls from Cherry Tree—4th of July Celebration at Church—Other Bluffs News.

Bluffs, July 7.—Robert Bingham, seven year old son of Mr. and Mrs. James Bingham suffered a painful injury Monday evening when he fell 15 feet from a cherry tree in which he had been climbing and broke one of the bones of the forearm near the wrist and badly bending the other. Shortly after the accident, he was taken to Our Savior's hospital in Jacksonville where he was treated by Drs. E. Bowe and Hargrove. His mother returned

with him on the morning train and he is getting along nicely. The fall was caused by the limb of the tree breaking. His forehead and nose was badly bruised but aside from the broken bone he is uninjured.

Fourth of July celebration in the form of Children's Day exercises occurred at the M. E. church Sunday evening. Music, singing and recitations by the pupils of the Sunday school was the order of the exercises. The "flag drill" by seven boys and eight girls was especially pleasing. Miss Helen Bentz of Quincy aided in the singing and her part on the program was much appreciated.

Miss Virginia Phillips of Quincy is the guest of Mr. and Mrs. Floyd House and family.

Monday was a very quiet day in town with all the stores and other places of business closed. Many of the citizens celebrated the day elsewhere. Many went on fishing trips but we failed to learn of any great catch made by any of them. Grant Ray returned from Camp Taylor to spend the 4th with his parents, Mr. and Mrs. Grant Ray. He sure presents a fine appearance in his military suit.

Miss Helen Rockwood left Saturday for Springfield to accompany her brother, H. G. Rockwood, and family to Chicago where they will spend a portion of their vacation and enjoy the sights in the "Windy City."

Mr. and Mrs. Virgil Robinson came over from Virginia Saturday to spend the 4th, remaining until Monday evening with their parents, Mr. and Mrs. H. C. Oakes.

Mr. and Mrs. Frank Halpin and children of Springfield have arrived for a visit with his sister, Mrs. P. M. Green and other relatives in town.

Mr. and Mrs. George Wweoff and family were business callers in Jacksonville Tuesday.

REPUBLICAN POLITICS IN GREENE COUNTY

Developments at Fourth Celebration at Roodhouse Give Promise of Change in County.

White Hall, July 6.—Republican politics in Greene county were given a new birth of hope in connection with developments at the Fourth of July celebration at Roodhouse, and it is a move that has not been sponsored by office, but the deep-seated desire on the part of the rank and file to see a change brought about in Greene county. This seems to be within the range of possibility if sentiment expressed among Republicans at the Roodhouse celebration is any criterion. The first urgent demand for a county ticket by an individual Republican came from Charles Richart, the veteran White Hall barber, over a month ago to the writer, and Mr. Richart since that time stated that Arthur D. Johnson, the Roodhouse attorney and a native of White Hall, ought to be persuaded to make the race for state's attorney. This point was carried to success Monday by the declaration of Mr. Johnson that he is entirely willing to permit the use of his name in that connection, and that in addition he will make a campaign for the success of a Republican ticket in Greene county this fall. E. S. Barnard, who had an attack of Greene county Republican fever as a result of developments at Roodhouse Monday, declares that he is going down into the Republican strongholds of Rockbridge township this week and see what the party workers there have on their minds. The name of Arthur V. Houghton, Jr., who made an excellent showing for sheriff two years ago, is used to show Republican possibilities in Greene county, and Houghton's name would doubtless get a place on the ticket if he would consent. It will be interesting to learn how the committeemen and party leaders in the county take up the situation that now presents for rescuing Greene county from democracy.

INCREASE IN AMERICAN LEGION MEMBERSHIP

Chicago, July 5.—Membership
in the American Legion in Illi-
nois has increased more than
four fold in the past year, it will
be reported to the next conven-
tion of the Legion in Illinois,
which takes place in Chicago
Sept. 2 and 3.

At the time of the first con-
vention, at ePoria in 1919, there
were 200 posts in the state and
membership stood around 15-
000. Since that time the posts
have increased to 650 and the
membership has gone up to 75-
000.

Illinois' remarkable growth is
attested by the fact that at the
last convention of the legion the
state stood 22nd in membership
while now it tops the list.

The Illinois plan of organiza-
tion which has had much to do
with these results has been much
commended within Legion circles
it is reported.

The program of the legion in
the state for the coming year,
together with the election of of-
ficers, will be taken up by the
September convention. It will
be held in the Medina Temple.

money to the value of \$900. His
shoes were found to be very
heavy and when they were photo-
graphed by the x-ray, twelve
large coins presumably \$10 gold
pieces were hidden between the
leather and the soles of each
boot.

AN ATTRACTIVE WINDOW

The west front window of T.
M. Tomlinson's clothing store
presents an attractive appearance
just now. In it are displayed
photographs of the winning team
of Illinois College in 1915 and
the team of 1919, Illinois College.
Arranged also the white sweat-
ers belonging to the boys and
given by the institution. Of the
boys 17 have letters and some
sweaters have two stripes on the
sleeve indicating the years of
service in the team.

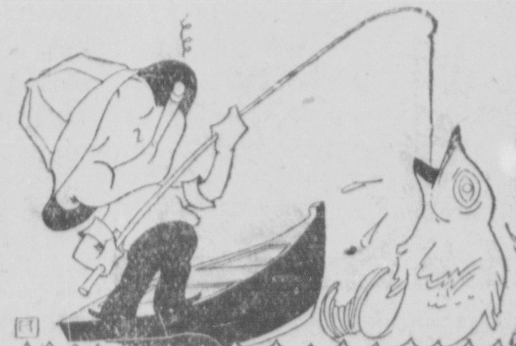

With acknowledgments to K. C. B.

Here's how Joe's
fish story really started

WE CLAMBERED down,
THROUGH HEAVY thickets,
AND WE rowed the boat,
OUT TO a rocky ledge,
WHERE BLACK bass hide,
THEN JOE let out a roar,
FOR HIS cigar box,
HAD FISH lines in it,
INSTEAD OF smokes.

AND HE refused with scorn,
OUR CIGARETTES.
HE SAID they were not,
EVEN FIT for bait.
HE'D HAVE a man's smoke,
OR NOTHING,
AND FOR an hour,
HE GOT nothing,
NOT EVEN a bite,
WHILE WE pulled 'em in,
AT LAST he grunted,
"GIMME A cigarette,"
AND IT just happened,
HIS LUCK changed then,
SO NOW Joe swears,
THAT THOSE cigarettes,
WERE SO blamed good,
HE BAITED a hook,
WITH ONE of them,
AND CAUGHT a whale,
PARTICULAR FISH, he says,
HIMSELF AMONG them,
ARE JUST the sort,
THAT THEY satisfy.

MANY a cigar smoker will agree that
Chesterfields "satisfy." They let
you know you're smoking. And yet
they're mild—mild and smooth. What's
the secret? Just knowing how to blend
choice Turkish and Domestic tobaccos
—just right!

They Satisfy

AN UNPLEASANT PREDICAMENT

Yesterday J. W. Prince, the veteran pharmacist and school teacher was relating an interesting experience which he didn't expect would be published but it is worth preserving.

In 1862 he was a resident of Indianapolis and had secured a school in the region of Virginia. He laded Jacksonville one Saturday evening with just three dollars in his pocket and at once sought to find how he could get to Virginia. He saw a sign, "Stage Office," on what was then the Mansion House, now the Park hotel, and carried on by a man named Cripps, who was succeeded by the Kelsey Brothers, who at one time managed the Dunlap, Mansion House and the Washburn Hotel.

To his dismay he learned that the stage wouldn't go to Virginia till Monday morning, the fare was a dollar and the hotel rates \$2.50 a day. He then thought he would try to get over that night and went first to Mac Springer, conducting a livery stable where is now the city hall and asked what it would cost him to get to Virginia and Mac replied three dollars and you feed man

and team. He then went to Jesse Newman where now is John Cherry's large establishment and the same terms were named. He wandered to the then Strawn's hall where the choir of the First Presbyterian church was practicing and was especially pleased with the singing but it didn't get him to Virginia. He went back to the hotel and asked the landlord what he would keep him for till Monday morning and supply him a ticket to Virginia. Probably thinking the young stranger was in close circumstances he replied three dollars and it was handed over leaving the young man absolutely penniless.

He reached Virginia, found a boarding house and began his school but his troubles were not over. Somehow it was discovered that he was a Republican in politics and the board refused to pay him. He presented his case but Mr. Bateman told him that was a matter for the county superintendent to settle but that official refused to act at all till one day he was inebriated and then heard the case refusing aid. Then Newton Bateman felt authorized to take up the matter and after being out of cash for six months the young instructor received his money.

WELL KNOWN SCHOOL TEACHER RETIRES

Miss Elizabeth Patterson Retires After Forty-Five Years of Teaching—Many Well Known Citizens of This and Cass County Were Her Pupils.

Few people realize the debt of gratitude due the faithful public school instructors who have done much to prepare the rising generation for the duties of life. For small compensation they tramp thru mud and snow; thru wind and rain; to their daily tasks; uncomplainingly they work with pupils, some dull and some wayward. They try to pacify the fond mother who can't see why her stupid boy can't keep up with his class and they argue, often in vain with the irate parents of the mischievous boy whose indulgent parents insist he is always good and if any way astray it is wholly the fault of bad boys with whom he comes in contact. As a doting father once remarked of his boy who was caught with some desperadoes, remarked: "Why, my boy wasn't at all to blame; the bad boys pushed him."

Well Equipped for Work.

With an honorable career of 45 years as an instructor Miss Elizabeth T. Patterson is now enjoying the fruits of her labors and can look back with satisfaction on her career as an instructor of the rising generation. She was born near Virginia and is the daughter of William and Catharine Trueman Patterson, who tried to give their children good advantages, the best obtainable. She graduated from the Womans College, then the Methodist Female College, and later studied at the college in Valparaiso, Ind., and at Buffalo, New York.

She then felt equipped for the career of school teacher and had little repitiation when she faced the august county superintendent of school at Cass county. That official knew something of the education the young lady had and and soon discovered she knew a whole lot more than he did and prudently refrained from pressing many question and gave her a certificate with little trouble on her part.

It was with no little "rging" that she entered the school room for the first time. She was young and of course inexperienced and the first day or two the proverbial smart Aleck thought he would try conclusions with her but all the pupils soon discovered they had to deal with a person who had come there to teach that school and meant to do it. The unruly ones soon discovered it would be a painful undertaking to ride over the new teacher so they subsided and the young lady finished her first term with great credit to herself and satisfaction to all concerned. That was about 1871.

Taught in Virginia.
She gave such good satisfaction that the directors wanted to employ her again but her fame had extended as far as Virginia and her services were sought in the graded school of the place tho it was not then the county seat. For five years she taught in Virginia and then decided she would like a new territory and came to Morgan county for Morgan county's good and taught her first school in Ebenezer following that place with terms at Arnold and Prairie Union.

She then went to the Womans College where she taught the primary grades for nine years making a host of friends.

In 1902 she thought she would give up the profession and declined to stay longer, much to the regret of Dr. Harker. She stood it a year and then the old feeling came over her and she longed again for the school room and the people at Litterberry were glad to have her there and she taught for nine years.

She then lacked a year of pension conditions so she finished up at Ceres in north part of Greene county and then gave up for good.

A great many persons have received instruction from her. When seen by the writer she was rather averse to giving her career but old time friendship prevailed. Asked to name some of her pupils she referred with great pleasure to George Wilson, the well known attorney of Quincy; always a bright, studious boy, smart and a perfect gentleman. Others were Frank Leach of this city; Matt Yaple and Lou Petefish, Virginia bankers; Fate Blackburn, the missionary to Bulgaria; Louella Blackburn, the Jacksonville teacher; Charles Blackburn; the Ferreira family, some of whose members are missionaries in the Hawaiian Islands; Harry Rice of Arnold; Mabel Holly, Ruth Waggoner, all the Harker children except the oldest and youngest; Millicent Rowe and two brothers; Margaret and Frances English, Jeanette Powell, Buford Hayden and daughters of J. H. Osborne, Lucille Andrews Chenoweth and others.

She and her veteran teacher brother, Guthrie Patterson, now are quickly enjoying the fruits of a faithful life service on a peaceful outside the city limits and tenderly caring for two invalid sisters. Miss Patterson is wonderfully well preserved and would easily pass for a person of 45 to 50 years of age. May she long be spared is the wish of many friends.
